Testing his time machine for the first time, a Victorian scientist finds himself in the year 802, 701 ad. Encountering a childlike people called the Eloi, who live in futuristic buildings and have no need of work, the Time Traveller speculates that the human race has evolved to live in a peaceful utopian society. Wells is credited with the popularisation of time travel, and introduced the idea of time being the fourth dimension a decade before the publication of Einsteins first Relativity papers.
