

## Single-chip application technology project tutorials (for the second Five-Year Colleges and Universities boutique planning materials)

Filesize: 9.69 MB

### ***Reviews***

*Extremely helpful for all type of folks. It generally is not going to expense a lot of. I found out this book from my dad and i advised this book to find out.*

***(Melany Goyette)***

## **SINGLE-CHIP APPLICATION TECHNOLOGY PROJECT TUTORIALS (FOR THE SECOND FIVE-YEAR COLLEGES AND UNIVERSITIES BOUTIQUE PLANNING MATERIALS)**

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 278 Publisher: Beijing Institute of Technology Pub. Date :2011-07-01 version 1. Microcomputer application technology projects Tutorial (author Pan will be far. Guo stable Tao) in accordance with electronic specialty corresponding positions and capacity-building requirements. integration of teaching content . reconstruction of the original single-chip technology. sensor technology. intelligent instruments three courses. which form a combination of engineering. project-oriented. task-driven. systematic work process of teaching scenarios modular course structure. single-chip application technology project tutorial by 4 modules (basic knowledge. interface applications. application technology. comprehensive training) to achieve the learning ability of students and the general technical ability. and consequently have the intelligent design of electronic products and equipment access capability. This book can serve as institutions of higher learning electronics professional students. but also for other electronic technology or embedded system design using the primary fan. Contents: Module 1 Intelligent Electronic Technology Chapter 1 intelligent electronic learning environment 1-1 first met the minimum system microcontroller development tools. learning environment 1-2 1-3 making use of intelligent electronic learning environment the smallest single-chip system learning environment 1-4 learning environment with the code number system 1-5 MCU internal structure of this chapter review questions to think Chapter 2 Assembly Language - Intelligent electronics instruction learning environment learning environment 2-1 2-2 data transfer instruction class instruction computing learning environment 2-- 3 2-4 logical control transfer instruction learning environment functions and bit manipulation instruction learning environment features a compilation of assembly language source 2-5 of this chapter review questions to think Chapter 3 Emergency - intelligent electronics interrupt system learning environment 3-1 One-touch programmable lights lights programmed learning scenarios 3-2 double bond of this chapter review questions to think Chapter 4 Alarm Clock...
